

IEEE ICCST 2021: 54th IEEE International Carnahan Conference on Security Technology - online

RESCHEDULED TO : 11 - 15 October, 2021

Hosted by the University of Hertfordshire, Hatfield, UK, AL10 9A

Submission deadline extended to: 17 September 2021

Topics

Biometrics

Cybersecurity

Physical security

Human Computer Interaction

The **IEEE International Carnahan Conference on Security Technology (ICCST2021)** has been rescheduled to 11-15 October 2021 on Zoom. The host is the University of Hertfordshire in the United Kingdom. ICCST2021 is the 54th annual edition of ICCST.

The International Carnahan Conference on Security Technology, sponsored by IEEE, is one of the longest running international technical symposia. This conference has a broad scope and invites papers on advanced security technologies including physical, cyber and electronic security research, development, systems engineering, testing, evaluation, case studies and new research lines to face current and future challenges. All papers will be carefully subjected to a blind review process. The conference proceedings will be submitted to the IEEE Xplore® digital library.

Paper submission via, [EasyChair](#) up to 17 September.

Authors of the best 8-10 papers will be invited by the editorial committee to prepare an extended version (with at least 30% more content) which will be blind peer reviewed and published in a special issue of the open access journal [Sensors](#) (impact factor 3.3)
